

How to find computer specifications - Mac

1. Click the Apple menu icon at the top left corner of your screen.
2. Click on “About This Mac.”
3. Take a screenshot of the window showing the version of macOS you are running on your computer.
4. On the same window click on “Storage” and take a screen shot of that as well.

Your computer must have macOS 10.13 (High Sierra), 10.14 (Mojave) or 10.15 (Catalina).
